

Unit 1: Lesson 3 –The Adaptive Immune System

Activity 3: Illustrating the Adaptive Immune System

Work as a group to create a multimedia resource (written story, skit, webpage, video script, etc.) that explains the features and functioning of the adaptive immune system. Use a suitable metaphor to illustrate the role of each immune system component and the communication between them.

Identify aspects of your metaphor that symbolize or relate to the following immune system components:

Antigen:

Antibody:

B cell:

T cell:

Antigen Presenting Cell:

Cytokine:
